Fibrelite Lightweight Composite Lids for HS20 Road Crossing Trench

- Manufactured from high performance polymers and engineered to outperform similar products made from concrete and fiberglass reinforced concrete materials, these lids are lightweight, yet tough enough to withstand traffic and harsh field conditions.

LHF Trench Covers
For Frequent Traffic
Load and Proof Tested to 40,000 lbs

Fibrelite Lightweight Composite Lids for HS20 Road Crossing Trench

- Substations
- Power Plants
- Co-Gen Facilities
- Wind Farms
- Refineries
- Universities
- Data Centres
- Industrial Plants
- Telecommunication Sites
- Waste Water Treatment Plants

FIBRELITE
LHF Trench Covers
For Frequent Traffic
Load and Proof Tested to 40,000 lbs

FIBRELITE
ecolite
Trench Covers
For Occasional Traffic
Load and Proof Tested to 20,800 lbs

- Lightweight composite construction
- Non-conductive
- Anti-slip / anti-static surface
- Weather resistant
- Chip and crack resistant
- Chemically inert
- Non-corrosive
- Maintenance free
- Freeze / thaw cycle impervious
- Exceeds service requirements
- Custom colors available
- UV stable
- 15 year warranty
- No scrap value
